**Each doubles team MUST consist of a mix of different team members. *For example: Michael Chang and Carl Chang cannot play men's doubles together for more than one match per team match.***

**Matches can still be played by the same doubles team mix if there are not enough players on that team to create a mix of a different team, but that match will not count and that match is an automatic default on the record. Also, two men can play their team's mixed doubles slot, but this is just to play, that match slot will be a default on the record.**

**Players must be on the court by the scheduled time.**

**Teams who have insufficient players will be defaulted for that match, whether it's not enough players, not enough players for the required gender, or not enough players to have different doubles teams.**

**USTA Code of Conduct will be enforced at all times by the Core Team.**
